Emohbi is a multi-tiered modified roll and move game where with each turn you choose the path to take.

Emohbi is engaging and interactive, where players climb ladders while avoiding waterfalls in the hopes of being the first to the top.

The game can be adjusted so ladders lead to other ladders or waterfalls lead to other waterfalls. There are thousands of possible configurations.

There are also "Draw A Card" spaces where if a player lands on one, they draw a card and take action. They may get to, among other actions; rotate a level, roll again, or lose a turn.

Emohbi is easily manufactured as all tiers are stamped from a single sheet of printed chipboard.

Once the game is assembled the smaller levels fit within the larger levels, so everything fits neatly in the box.

Emohbi has been thoroughly play tested and enjoyed.
