- Emohbi is a multi-tiered family game where with each turn you choose the best path to take.
- Emohbi is engaging and interactive where players climb ladders while avoiding waterfalls in the hopes of being the first to the top.
- The game can be adjusted so ladders lead to other ladders or waterfalls lead to other waterfalls giving you thousands of possible configurations.
- There are also special cards where if a player plays one they take the action on the card and may get to switch places with another player or rotate a level completely disrupting the game or setting themselves up for a quick run to the top.
- Emohbi is easily manufactured as all levels are stamped from a single sheet of chipboard.
- Once the game is assembled the smaller levels will fit in the larger levels so everything fits neatly in the box.
